# Athens Public Transport Map

*Bus · trolleybus · tram · metro · suburban rail · Αστικές συγκοινωνίες Αθήνας*

259 bus and 17 trolleybus routes · tram · metro · suburban rail

Source: OASA (oasa.gr), data downloaded 01 Nov 2026

Built from open OASA geodata; lines follow street centrelines without a base map. 2×2 km grid, coordinate system GGRS87 (EGSA87). Bus, trolleybus and tram stop names use one small font and never cross the lines; metro and suburban rail station names are larger and bold. Route-number pills follow the line. Tram line numbers (T6, T7) are absent from the OASA data: they are taken from the Athens tram map and matched to the tracks by stop sequence.
